

Predicted leader favorability by commune and survey wave

Model 4 predictions including each commune's and village's own effects, averaged over its respondents with survey weights. Communes with few respondents are pulled toward the overall level.

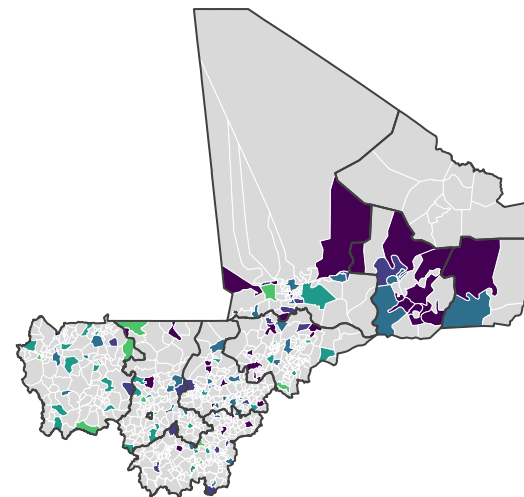

Wave 1

Wave 2

Wave 3

Predicted percent with a favorable view of the leader (Model 4)

Boundaries: DNCT Mali (2021), via OCHA COD-AB, Humanitarian Data Exchange. Survey communes not placed on the map: 0.
